## Eco Accessories

**Anti Theft Clip**  
Protect your fencing against theft.

**Supaspikes & Bolt Down**  
The Supaspikes are incredibly easy to install. Just drive it into the ground and place the post over the top of the spike. For solid surfaces such as driveways and pavements use the Supaspikes Bolt Down.

## SAVE £££'s - compare the costs

Eco fencing will work out much cheaper over time compared to timber panels, which would need to be maintained every couple of years. Compare the facts!

10 Year Maintenance Costs For 10 No 6' x 6' Eco Panels

**£0.00**

10 Year Maintenance Costs For 10 No 6' x 6' Timber Panels

**£618.86\***

Please Note - Although Eco Fencing does not require any maintenance to preserve the life span of the fence, it will weather over time and blend into the surrounding area as a timber fence does.

\* Figures based on a timber panel which would need treating a minimum of four times over a 10 year period, using 14 tins of preserver @ £22.49 each, 50 hours of YOUR time at minimum wage of £6.08

### Can be cut with a handsaw

Because Eco Fencing is so easy to cut, Gravel Boards can be easily trimmed to suit popular European fence panels which are 1.8m wide. Wood-Grain will also accept screws to secure your fence into position.

Easy To Cut

Lightweight

Accepts Screws

### Eco Fencing has strength

In independent testing Wood-Grain proved that it has a much greater tensile strength than concrete posts, as the combined weight of 56 stone demonstrates! It will even flex in strong winds.

### Replace your rotten panels

Simply remove your old panels from your concrete posts and then slot the Eco Fencing gravel boards in place. In an instant you have a maintenance free fence which not only looks good but is easy to install and never needs treating

### Incredibly Light

At around 5KG's Eco Fencing is a pleasure to work with. Eco Fencing is incredibly light and strong, making general handling and transportation easy. The health & safety risks ever present with concrete fence posts are eliminated.

### Looks and feels like wood

Eco Fencing's unique finish will add beauty and complement your garden for years to come. Unlike concrete Wood-Grain's dual face means you can also share the cost.

Covered by our **20 year Warranty**

All Eco Fencing products come with a 20 year manufacturing warranty against rotting. Variations in colour, shade or pigment are NOT covered under our warranty. These variations in no way affect the longevity of the product. For your nearest stockist visit [www.ecofencing.net](http://www.ecofencing.net) or call 01977 550 441

Replace Your Old Rotten Panels

# It's Quick, It's Easy... ...To Transform Your Garden

Before Eco Fencing

Transformed with Eco Fencing

Old Timber Panels

Replaced with Eco Fencing

The only fence you will ever fit!

“We had eco fencing fitted just before the severe gales and it really is as strong as they say. The posts swayed in the gale and when it was over they were all perfectly straight and my fence was still intact, unlike most of my neighbours whose had blow over or had been blown out. A great product really pleased with it.”

Mr. Johnson, Harrogate.

“What a great product, the gravel boards simply slotted into my existing concrete posts. All done in less than an hour, it took more time getting to the tip with my old rotten fence panels. Would not hesitate to recommend Eco Fencing ”

R Kelly, Hemmel Hempstead.

“ECO Fencing is a fantastic product and was very easy to install, it look fantastic and the best thing about it is no maintenance. Since having the fencing installed I have had lots of people ask me where it was purchased.”

Mr. Jones, Wales.

“The Eco fencing gravel boards and posts look great. I didn't realise they were stronger than wood and concrete until my neighbours fence fell in the high winds and mine kept standing. I fitted them myself and what an easy job it was as they are so light and easy to work with.”

Steve Lowe, West Sussex.

“The concrete post cracked and could not therefore recover, rendering the post non-servicable. The Eco Fencing posts deflected the same amount, it follows therefore that the Eco Fencing posts posses a significant tensile strength that concrete posts do not.”

Stephen Barker, I.Eng. M.I.I.E., Chief Test Engineer (2005)

**Environmentally friendly**  
Wood-Grain is manufactured from 92% recycled materials. In using Wood-Grain you can be assured that you are protecting the world's natural resources and helping the environment.

**Use With Existing Posts**  
Eco Fencing can be easily used to replace your rotten timber panels in concrete posts. Simply remove you old panels and slot the Eco gravel boards into the slots to the desired height. A quick and simple solution.

**Looks and feels like wood**  
Eco Fencing's unique finish will add beauty and complement your garden for years to come. Unlike concrete Wood-Grain's dual face means you can also share the cost.
